

DentaPure™ Cartridge for Dental Waterline Compliance¹

**Certificate of Coverage
May 2021 to May 2022**

COMMITMENT TO OUR PATIENTS

This office has purchased the DentaPure™ Cartridge for microbiological dental unit waterline purification to ensure that it meets water quality recommendations set forth by the Environmental Protection Agency (EPA) and adopted by the American Dental Association (ADA), Centers for Disease Control (CDC) and the Organization for Safety, Asepsis and Prevention (OSAP).

The DentaPure™ Cartridge installed in this office uses the same technology developed for NASA to ensure that water consumed in space does not contain harmful levels of bacteria. DentaPure™ Cartridges provide clean and compliant¹ water for dental treatment.
